

Ordering your new Vintage Air system is easy.

Step One -

First, we urge you to take the time to read the "Basics" and "State Of The Air" sections at the front of this catalog. Air conditioning is not difficult to install but it is a complex system which must be carefully selected and matched to perform to its maximum potential. Our dealers have the knowledge to assist you in finalizing your order or feel free to call us direct with any technical questions you may have.

Step Two -

Turn to the order form at the back of this catalog. It has been designed to help you assemble the specifications of: your vehicle, engine type, and other details necessary to order properly. Having this information assembled before you call to order helps our dealer get you the right components for your vehicle.

Step Three -

Based on the specifications for your vehicle you can probably determine which evaporator is best suited to your car. Just note the series number printed directly under the unit photo. Then specify "Heat & Cool" or "Heat, Cool & Defrost" model. (Example: Page 16 shows our GEN-II Super Cooler, series number 61005.) That number gives your dealer a starting point to building your system package.

Step Four -

Decide which type of standard or optional Proline controls you want (see pages 26). Note your selection by name and number.

Step Five -

Decide which type of louvers you want. Choose from the standard louvers on pages 29 or upgrade to Proline louvers shown on page 30. Note by name and number.

Step Six -

Note any additional custom features, optional Proline accessories, and other items such as engine cooling fan, fan shroud, compressor safety switch (binary or trinary), etc. (Your compressor mounting brackets will be determined by your engine specs.) Other upgrade brackets are available on pages 56-64.

Step Seven -

Choose one of our dealers from our worldwide listing on pages 83-89 or call us at 1-800-862-6658 today for more information.

Step Eight -

Pick up your phone and start "Living The Cool Life" with your new Vintage Air system!

TOTALLY COOLed GALLERY

What can we say about Posies' creations! Year after year he builds some of the most beautiful and imaginative cars around. Each year he stretches the envelope with new styles, new details and new technology. We are proud to say that one of the consistent things about Posies' cars is the Vintage Air. No matter what his next car will be, we know it will be totally cooled by Vintage Air!
