

## GEN-II CONTROL PANELS

### Base Model 4-Lever Gen-II Controls

The Gen-II delivers true OEM style louver air temperature regulation and bi-level operation\* of a/c and heat modes. This standard panel operates our exclusive servo actuated heater valve which allows the introduction of small amounts of heat to regulate air temperature. Simple plug-in connections, no vacuum lines, and fewer wires to route. Slightly larger face allows you to upgrade from existing vacuum system Proline Panel installations.

**49110-SHQ** 4 Lever Fingertip Panel  
4.63" wide x 2.44" tall. Internally lighted.

**49110-SVQ** 4 Lever vertical Fingertip Panel  
2.44" wide x 4.63" tall. Internally lighted.

### Base Model Rotary Knob Gen-II Controls

The same control functions as our well know slider panels but these use rotary knobs to control all functions. These control switches can be used directly in your dash without the pods for a true custom look.

**49200-RHA** Gen-II 4 Knob Underdash Pod  
(For Gen-II systems with servo heater valve).

**49205-RHA** Gen-II 4 Knob Under dash pod w/louver  
(For Gen-II systems with servo heater valve) Optional.

### Upgrade Gen-II™ Panels

#### Gen-II Machined Face Panels

Aluminum slide control panels put just right temperatures at your fingertips. Available in horizontal or vertical design. Internally lighted.

Polished Face and Knobs.  
5.318" wide x 1" tall.

**491229** 4 Knob Streamline Panel  
Black Anodized Face and Knobs.  
5.318" wide x 1" tall.

## TOTALLY COOLED GALLERY

It seems all the top builders are into muscle cars now. When Bobby Alloway decides to do it you know it will be amazing! This '67 Fastback Mustang features a twin turbo 4.6 Cammer motor, Six speed trans, 14" Wilwood brakes and a full Art Morrison Max-G chassis. Like all Alloway cars, it's just as smooth and slick underneath as it is on top. Oh, it also has a full Vintage Air Gen-II climate control, natch!
