

**GEN IV**

All new design specifically for '68-'76 Corvette models. New separate heater and cooling coils and high volume blower give you OEM quality comfort, provide infinite dash and floor blending, and retains the factory look inside your vehicle. Factory "wheel type" console controls are used. Sure Fit systems mount to existing holes in dash and firewall in most cases.

Complete kit includes: Evaporator, condenser, drier, compressor, compressor bracket, hose kit and hi/lo safety switch.

**The Gen-IV All-In-One Kit For Your Stingray Corvette!**

**EVAPORATOR KIT:** Air conditioning, heating and defrost combination designed specifically for your vehicle. Original a/c or non-a/c control assembly in your console connects to and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling\* or fabrication. Evaporator kit comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness and installation instructions.

**COMPLETE KIT:** All above plus condenser and drier package. Attaches to existing radiator mounting holes. No drilling\* or fabrication required. Comes complete with condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware.

**NOTE:** Some installations may require additional engine pulleys not included with kits. See page 64 for options. You must provide v-belts and refrigerant.

**Corvette Gen-IV Sure Fit™ System Features:**

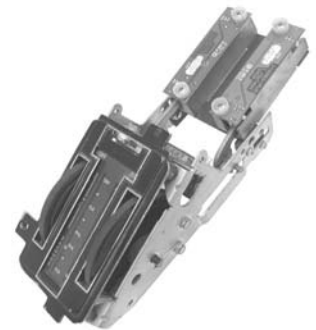

- Electronic servo motor controls - No cables or capillary tube to route!
- Separate high capacity heat and cooling coils
- Mounts completely behind dash.
- A/C exits through original dash vents.
- Steel firewall cover plate.
- Dehumidified defrost with infinite floor air blend.
- Infinite dash/floor blend.
- Adapts to original "Thumb Wheel" type controls.

We recommend using a heavy duty fan blade and shroud see pages 74-75.
